**FLAMERET, INC**

After some protracted and frustrating delays, the long-awaited new funding's first tranche is expected in the three to ten days. There will be a full press release when that initial tranche arrives.

The balance of the full funding, and this has now been confirmed by the funding agency, is expected by the end of September.

We believe this information is accurate and will be beneficial to all interested parties.

We wish you all a happy Labor Day.
